

NOTICE OF MOTION to Moray Council
Wednesday 15 September 2021

Glasgow Food & Climate Declaration

Council notes the request made to the Council Leader by the Leader of Glasgow City Council to sign the Glasgow Food and Climate Declaration ahead of COP26 and join the commitment and call to action for a food-systems approach to tackling the climate and nature emergency.

Council further notes that signatories include a range of sub-national governments and organisations from countries around the world and include a number of Scotland's Local Authorities.

Council notes that there are no significant financial implications to signing the declaration as actions already agreed as part of our Climate Change strategy aim to deliver these benefits.

Council notes the information that can be found on the Glasgow declaration webpage at www.glasgowdeclaration.org and instructs the Council Leader to sign the Declaration, the text of which is detailed in Appendix 1.
