

Item 4a Corporate Plan – Cllr Van Der Horn proposed amendment

Page 3 where bullet point has been added, “effects of climate change on our natural environment”, maybe just say “effects of climate change on our environment and communities.” - or society, as communities is in the header?

Finally on page 7 the “council adapts to the changing climate and acts sustainably”, could that read “council adapts and acts to the impacts of climate change” – you can add “adapts and acts sustainably to the impacts of climate change” as an alternative. prefer former, can live with latter.
