## PROJECT/WORKSTREAM PROPOSAL

### APPENDIX 2

#### Why does it need to be done? *(bullet points – main drivers; current issues)*

Evidence demonstrates the new approaches characterised by collaboration between organisations and partnerships with people and communities are making a real difference and can provide positive models for the future – this is a test of change to collect evidence for the successful rollout in Moray.

#### When does it need to be done? *(only include known **critical** timescales here – e.g. legislative, contractual etc.)*

- As soon as possible, to fill gap created by previous model/provision ending;
- Would want to get adverts out for recruitment **by 21 Oct 2021** in order to provide 6 month test of change for day opportunities workers with permanent posts for Grade 7 Enablers.

#### What are the risks of not doing this? *(compared with current situation)*

- Miss the opportunity to find effective and efficient ways of working;
- Miss the opportunity to align day opportunities to SDS and 3 conversation model;
- We fail to recognise the local context; and
- We are unable to provide services to those with assessed need.

#### What are the main *likely* benefits of doing this? *(bullet points – including any likely financial and non-financial savings)*

- Leadership [both local through valuing community partners and external from partners such as i-hub];
- Partnership with Communities [Building capacity of community organisations, sharing responsibility with local partners, collaborating to shape new approaches and design services];
- Incremental change [starting small and growing with local needs];
- Understanding local contexts [planning with multi-agencies, signposting, identifying assets];
- Promoting home first and care/support in the community; and
- Reducing cost for delivery in the long term.

#### How will we know we have been successful? *(bullet points – what are the targets / what measures will be used to demonstrate the change?)*

- People will be empowered;
- Improved community wellbeing;
- Provide radical change in design of service delivery;
- Self-Directed Support is aligned with community led health and social care;
- Collaboration is achieved in the delivery of day opportunities;
- Community groups take greater responsibility using local resources;
