

APPENDIX 2

Dallas Dhu TPO – Comments and Proposed Response

Comment/Objection	Proposed Response
No objection to TPO in principle. Dava Way Association requires to carry out maintenance work along the Dava Way to ensure it remains accessible. Seek an exemption to allow for the loping of branches where they encroach onto the Dava Way and which impede access or pose a threat to safe passage along it.	The Council accepts that the Dava Way Association has a duty of care to maintaining the Dava Way and that the requirement to apply to the Council to carry out works on protected trees as set out in the TPO may become cumbersome. Therefore, an exemption is proposed that an annual maintenance plan for areas W1 and W5 be submitted by the Dava Way Association, prepared by a certified arborist, to the Council for approval. The removal of trees within the two areas would still require an application to the Council for consideration.
