

Overview of Actions

Key
Phase 1 - Scoping & Research
Phase 2 - Design & Developing Business Case
Phase 3 - Delivery

No.	Action	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31
1.1	Convert all fossil fuel heating systems to low carbon alternatives.										
1.2	Increased renewable energy generation from council assets.										
1.3	Complete Learning Estate AMP.										
1.4	Implement zero carbon standards in new buildings.										
1.5	Achieve EESSH for all council houses.										
1.6	Increased building user awareness on energy usage.										
2.1	Displace fossil fuelled vehicles and plant with ULEV options.										
2.2	Develop and promote Travel Plans for council, etc.										
2.3	Promote and enhance active travel at schools.										
2.4	Develop strategy and guidance for public EV charging facilities.										
3.1	Reduction of waste landfilled through diversion to energy recovery.										
3.2	Reduce waste through reuse and recycling.										
3.3	Support creation and promotion of community benefit wish list.										
4.1	Support homeworkers to reduce their emissions.										
4.2	Ratify buildings and develop shared facilities.										
4.3	Apply zero and low carbon objectives in all investment decisions.										
4.4	Ensure CCS and CCAP remain fresh and valid until 2030.										
4.5	CC and Biodiversity assessment as part of all committee papers.										
4.6	Deliver carbon literacy training.										
4.7	Update CC awareness training as part of staff induction process.										
4.8	Pilot a network of staff climate change champions.										
4.9	Support networking opportunities for teachers and pupils on CC.										
4.10	Increase opportunities for Learning for Sustainability in schools.										
4.11	Continue to reduce carbon impact of school meals.										
4.12	Improve sustainability and recycling in cll buildings										
4.13	Increase use of virtual environment for information.										
4.14	By default ICT equipment to operate in most energy efficient mode.										
4.15	Promote and increase opportunities for remote working.										
5.1	Continue to develop the non-cash benefits through procurement.										
5.2	Implement updates into procurement process.										

5.3	Develop simple process for suppliers to evidence carbon reduction.											
5.4	Develop action plan for raising awareness of local businesses.											
5.5	Develop sustainable procurement guidance and inform lead officers.											
6.1	Commission research for baseline carbon inset											
6.2	Development of Indicative Carbon Offsetting Plan.											
6.3	Large scale tree planting on TMC owned land.											
6.4	Tree planting in partnership with landowners in Moray.											
6.5	Innovative carbon offsetting projects.											
6.6	Community offsetting projects.											
7.1	Deliver LHEES programme.											
7.2	Continue the HEEPS programme.											
7.3	Promotion of the Active Travel Strategy.											
7.4	Increase relevant skills and knowledge for a greener economy.											
7.5	Feed into the development of Moray apprenticeship strategy.											
7.6	Support awareness raising for businesses.											
7.7	Development on CC Engagement Strategy.											
7.8	Assist effective governance for CC priorities for Moray.											
7.9	Consult community groups and residents about climate change											
7.10	Reporting and monitoring of results in area-wide emissions.											
7.11	Support the work of the Moray Climate Assembly.											
7.12	Engage with local communities to facilitate renewable energy											
7.13	Develop and promote Moray-specific climate emergency training											
7.14	Promote national campaigns.											
7.15	Join support networks to assist the progress of climate change work											
7.16	Implement NPF 4 policies relating to the climate crisis.											
7.17	Develop Regional Spatial Strategy											
7.18	Review Forest and woodland strategy											
7.19	Develop 20 minute neighbourhood concepts for Moray's main towns											
7.20	Promote and support brownfield development over greenfield development.											
7.21	Deliver Moray Growth Deal Housing Mix Delivery project.											
7.22	Review and support Food Growing Strategy and Open Space Strategy
